106726 SIDE TABLE BROMPTON

ASSEMBLY INSTRUCTION

- 1 Place the stand on a flat surface.
- 2 Loosen the wing screw completely to avoid scratches on the telescopic pipe.
- 3 Determine the desired height of your table and fix the telescopic pipe in the correct position with the wing screw.
- 4 Place the glass top on the pipe and fix it by turning the glass in clockwise direction.  
To adjust the height of the table, hold the glass top before loosening the wing screw. After loosening the wing screw, pull/push the glass top to the desired position gently and tighten the wing screw to fix it.
